About Zayo Group

Based in Boulder, Colo., privately owned Zayo Group (www.zayo.com) is an international provider of fiber-based Bandwidth Infrastructure services and carrier-neutral colocation and interconnection services. Zayo serves wireline and wireless carriers, data centers, Internet content and services companies, high bandwidth enterprises, and federal, state and local government agencies. Zayo provides these services over metro, national, international and fiber-to-the-tower networks. With its acquisitions of USCarrier, FiberGate, AboveNet, FTS and LiteCast, Zayo's network includes 72,800 route miles, serving 45 states and Washington, D.C. Its network serves approximately 11,104 on-net buildings, including 546 data centers, 553 carrier PoPs, and 2,845 cell towers. Zayo's colocation assets include 141,000 billable square feet of interconnect-focused colocation space.
