

Zayo Group, LLC Reports Financial Results for the Fourth Quarter and Fiscal Year Ended June 30, 2013

Fourth quarter net income of \$1.1 million on revenue of \$258.2 million. Full fiscal year ending June 30, 2013 net loss of \$142.8 million on revenue of \$988.1 million.

Fourth quarter 2013 Adjusted EBITDA of \$141.7 million representing \$566.8 million of annualized Adjusted EBITDA. Full fiscal year ending June 30, 2013 Adjusted EBITDA of \$553.0 million.

BOULDER, Colo., September 23, 2013 – Zayo Group, LLC ("Zayo Group" or "the Company"), a leading provider of bandwidth infrastructure and network-neutral colocation and connectivity services, announced results for the three and twelve months ended on June 30, 2013.

Fourth quarter revenue of \$258.2 million grew 8% over the previous quarter on an annualized basis, largely a function of organic growth associated with positive net installations, and to a smaller extent, acquisition related growth resulting from the acquisition of Core NAP, L.P. ("Core NAP") on May 31, 2013. Adjusted EBITDA of \$141.7 million decreased 17% over the previous quarter on an annualized basis, as the Company recorded a \$10.2 million charge for lease termination costs. Excluding this charge, Adjusted EBITDA for the quarter would have been \$151.9 million representing \$607.6 million on an annualized basis and 11% growth over the previous quarter on an annualized basis.

Total revenue and Adjusted EBITDA for fiscal year 2013 increased by \$606.0 million and \$358.5 million, respectively, as compared to fiscal year 2012 primarily as a result of the July 2, 2012 acquisition of AboveNet. Additional acquisition related activity throughout the fiscal year also contributed to the increase. Organic growth related to our sales efforts and expansion of the network represented approximately \$46 million of the increase.

During the three months ended June 30, 2013, capital expenditures were \$101.9 million, which included adding 1,514 route miles and 482 buildings to the network. The Company had \$88.1 million of cash and \$243.4 million available under its revolving credit agreement on June 30, 2013.

Financial Highlights

- Zayo Group generated quarterly revenue of \$258.2 million; a \$5.1 million sequential quarter increase representing 8% annualized sequential growth
- Net earnings of \$1.1 million for the fourth quarter was \$26.4 million higher than the \$25.3 million net loss for the previous quarter
- Gross profit for the quarter increased \$6.3 million from the previous quarter reaching \$224.3 million for a gross profit percentage of 87%

- Adjusted EBITDA for the fourth quarter was \$141.7 million, which was \$6.1 million lower than the
 prior quarter, as the Company recorded a \$10.2 million charge for lease termination costs related to
 exit activities initiated for unutilized space
- Quarterly revenue and Adjusted EBITDA increased by \$148.6 million and \$84.2 million, respectively over the fourth quarter of fiscal year 2012
- Net earnings increased by \$6.4 million from the fourth quarter of fiscal year 2012
- Fiscal year 2013 revenue increased by \$606.0 million or 159% over fiscal year 2012
- Net earnings decreased by \$137.0 million from fiscal year 2012 resulting in a net loss of \$142.8 million for the current fiscal year
- Adjusted EBITDA for the fiscal year 2013 increased by \$358.5 million or 184% over fiscal year 2012. Net purchases of property and equipment were \$323.2 million for the fiscal year

Recent Developments

Core NAP Acquisition

On May 31, 2013, the Company acquired Core NAP, L.P. ("Core NAP"), a Texas limited partnership, for total consideration of \$7.3 million (inclusive of assumed capital leases), subject to certain post-closing adjustments. Core NAP is a provider of colocation services through the operation of a single datacenter facility in Austin, TX. The acquisition was funded with cash on hand.

The acquired Core NAP business operates a 15,000 sq. ft. data center facility in northwest Austin, Texas, which offers carrier-neutral colocation consisting of a dense enterprise footprint with over 220 existing customers and four major carriers providing services to cloud, enterprise, financial, carrier, media and other connectivity focused customers.

The results of the acquired Core NAP business are included in the operating results of the zColo business unit beginning June 1, 2013.

Access Communications Purchase Agreement

On August 13, 2013, the Company entered into an agreement to acquire 100% of the equity interest in Access Communications, Inc. ("Access"), a Minnesota corporation, for total consideration of \$40.0 million, subject to post-closing adjustments. The acquisition will be funded with cash on hand.

Access is a provider of metro bandwidth infrastructure services over a 1,200 mile owned fiber network that covers the greater Minneapolis-St. Paul metropolitan area, connecting more than 500 on-net buildings, including the area's major datacenters and carrier hotel facilities. Access is primarily focused on providing dark fiber services to a concentrated set of Minneapolis area carrier, enterprise and governmental customers, particularly in the education segment.

Adjusted EBITDA margin	55%	58%

The sequential quarterly revenue increase of \$5.1 million was the result of organic growth and to a smaller extent, the May 31, 2013 acquisition of Core NAP. The Company generated additional monthly revenue of \$4.6 million associated with gross installations accepted in the quarter ended June 30, 2013. This increase in revenue related to organic growth was partially offset by total customer churn of \$3.7 million in monthly revenue during the quarter. Approximately 78% of churn processed was related to hard disconnects; 15% was related to negative price changes; and 7% was associated with upgrades.

The Company's gross profit percentage increased by one percentage point, while the Adjusted EBITDA margin decreased by three percentage points as compared to the prior quarter. The decrease in the Adjusted EBITDA margin was attributed to a \$10.2 million charge for lease termination costs related to exit activities initiated for unutilized office space and technical facilities. Integration activities associated with acquisitions completed during fiscal years 2012 and 2013 resulted in the Company's determination that certain facilities under lease would not be used by the Company in the future. Excluding this charge, the Adjusted EBITDA margin would have been 59% for the quarter, one percentage point increase over the prior quarter.

Net earnings increased by \$26.4 million in the quarter ended June 30, 2013 as compared to the previous quarter's net loss of \$25.3 million. The increase in net earnings is primarily due to the recognition of a \$16.0 million income tax benefit in the fourth quarter as compared to income tax expense of \$13.3 million for the previous quarter. In addition, favorable movements in interest rates increased the fair value of the Company's interest rate swaps, which resulted in a \$7.7 million decrease to interest expense during the fourth quarter. This was offset by a \$10.2 million charge for lease termination costs related to exit activities initiated for unutilized office space and technical facilities recorded in the fourth quarter.

Revenue increased \$148.6 million over the fourth quarter of fiscal year 2012 principally as a result of the July 2, 2012 acquisition of AboveNet and additional acquisition-related activities during fiscal year 2013. Organic growth related to sales efforts and expansion of the network also contributed to the increase. As a result of internal sales efforts since June 30, 2012, the Company has entered into \$1,032.1 million of gross new sales contracts which will represent an additional \$18.4 million in monthly revenue once installation on those contracts is accepted. Since June 30, 2012, the amount of gross installations accepted resulted in additional monthly revenue of \$18.3 million as of June 30, 2013. This increase in revenue related to our organic growth was partially offset by total customer churn of \$13.4 million in monthly revenue since June 30, 2012.

Gross profit increased \$137.5 million over the fourth quarter of fiscal year 2012, as a result of the acquisition-related activity during fiscal year 2013 and organic revenue growth. Gross profit percentage for the quarter ended June 30, 2013, increased eight percentage points compared to the same period last year, primarily as a result of synergies realized related to our previous acquisitions and gross profit on newly installed revenue continuing to exceed the gross profit on revenue churned. This gross profit profile is reflective of the Company's strategy to deploy capital in network expansion and sell largely "on-net" services.

Net earnings increased by \$6.4 million for the fourth quarter of fiscal year 2013 as compared to fiscal year 2012 primarily due to an income tax benefit recorded in the fourth quarter for \$16.0 million, versus income tax expense of \$10.8 million for the fourth quarter of 2012. This was offset by higher interest expense associated with the Company's increased indebtedness, and higher stock-based compensation expense associated with an increase in the value of the common units, primarily as a result of our organic growth since June 30, 2012, synergies realized and expected to be realized from our fiscal 2013 acquisitions, and a

reduction to the discount rate utilized in the Company's valuation of the common units resulting from the Company's reduced financing costs.

Adjusted EBITDA increased \$84.2 million as compared to the fourth quarter of fiscal year 2012, due to the Adjusted EBITDA contribution from the fiscal year 2013 acquisitions, synergies realized and organic revenue growth.

Total revenue increased by \$606.1 million over the prior fiscal year principally as a result of our fiscal 2012 and fiscal 2013 acquisitions and organic growth. The majority of the revenue recognized during fiscal years 2013 and 2012 resulted from monthly recurring revenue streams.

Gross profit increased by \$552.0 million as a result of the fiscal 2012 and fiscal 2013 acquisitions and organic revenue growth. Gross profit percentage increased by eight percentage points primarily as a result of gross installed revenues having a lower component of associated operating costs than the prior period revenue base due to a higher percentage of our newly installed revenue being supported by our owned infrastructure assets (i.e. on-net). Gross profit percentage also benefited from a higher percentage of acquired revenue being onnet and from network related synergies realized related to our fiscal 2012 and fiscal 2013 acquisitions.

Net earnings decreased by \$137.0 million on a year over year basis primarily due to a \$77.3 million loss on extinguishment of debt related to financing transactions completed in fiscal year 2013 and higher interest expense as a result of our additional indebtedness incurred in connection with the AboveNet acquisition. On

July 2, 2012, in connection with the AboveNet acquisition, the Company issued \$1,250.0 million of senior notes and a \$1,620.0 million senior secured term loan facility. The Company's stock-based compensation expense also increased primarily as a result of organic growth since June 30, 2012, synergies realized and expected to be realized from our fiscal 2012 and fiscal 2013 acquisitions and a reduction to the discount rate utilized in the Company's valuation of the common units resulting from the Company's reduced financing costs. Improved operating margins partially offset these costs.

Adjusted EBITDA increased by \$358.5 million as compared to the prior fiscal year 2012, due to the Adjusted EBITDA contribution from our fiscal 2012 and fiscal 2013 acquisitions, organic revenue growth, and synergies realized.

Forward Looking Statements

Information contained or incorporated by reference in this earnings release, in other SEC filings by the Company, in press releases and in presentations by the Company or its management that are not historical by nature constitute "forward-looking statements" which can be identified by the use of forward-looking terminology such as "believes," "expects," "plans," "intends," "estimates," "projects," "could," "may," "will," "should," or "anticipates" or the negatives thereof, other variations thereon or comparable terminology, or by discussions of strategy. No assurance can be given that future results expressed or implied by the forwardlooking statements will be achieved and actual results may differ materially from those contemplated by the forward-looking statements. Such statements are based on management's current expectations and beliefs and are subject to a number of risks and uncertainties that could cause actual results to differ materially from those expressed or implied by the forward-looking statements. These risks and uncertainties include, but are not limited to, those relating to the Company's financial and operating prospects, current economic trends, future opportunities, ability to retain existing customers and attract new ones, outlook of customers, and strength of competition and pricing. In addition, there is risk and uncertainty in the Company's acquisition strategy including its ability to integrate acquired companies and assets. Specifically there is a risk associated with the Company's recent acquisition of Core NAP and the benefits thereof, including financial and operating results and synergy benefits that may be realized from these acquisitions and the timeframe for realizing these benefits. Other factors and risks that may affect the Company's business and future financial results are

detailed in the Company's SEC filings, including, but not limited to, those described under "Risk Factors" within the Company's Annual Report on Form 10-K. The Company cautions you not to place undue reliance on these forward-looking statements, which speak only as of their respective dates. The Company undertakes no obligation to publicly update or revise forward-looking statements to reflect events or circumstances after the date of this presentation or to reflect the occurrence of unanticipated events except as required by law.

This earnings release should be read together with the Company's audited consolidated financial statements and notes thereto for the year ended June 30, 2013 included in the Company's Annual Report on Form 10-K filed with the SEC on September 23, 2013.

Non-GAAP Financial Measures

The Company provides financial measures that are not defined under generally accepted accounting principles in the United States, or GAAP, including earnings before interest, taxes, depreciation and amortization ("EBITDA"), and Adjusted EBITDA. EBITDA and Adjusted EBITDA are not measurements of our financial performance under GAAP and should not be considered in isolation or as alternatives to net income or any other performance measures derived in accordance with GAAP or as alternatives to cash flows from operating activities as measures of liquidity.

"Adjusted EBITDA" is defined as EBITDA from continuing operations adjusted to exclude transaction costs, stock-based compensation, and certain non-cash and non-recurring items. Management uses EBITDA and Adjusted EBITDA to evaluate operating performance, and these financial measures are among the primary measures used by management for planning and forecasting future periods. The Company further believes that the presentation of EBITDA and Adjusted EBITDA is relevant and useful for investors because it allows investors to view results in a manner similar to the method used by management and makes it easier to compare our results with the results of other companies that have different financing and capital structures.

EBITDA and Adjusted EBITDA have limitations as analytical tools, and should not be considered in isolation from, or as substitutes for, analysis of our results as reported under GAAP. For example, Adjusted EBITDA:

- does not reflect capital expenditures, or future requirements for capital and major maintenance expenditures or contractual commitments;
- does not reflect changes in, or cash requirements for, our working capital needs;
- does not reflect the significant interest expense, or the cash requirements necessary to service the interest payments, on our debt; and
- does not reflect cash required to pay income taxes.

The Company's computation of Adjusted EBITDA may not be comparable to other similarly titled measures computed by other companies, because all companies do not calculate Adjusted EBITDA in the same fashion.

Because the Company has acquired numerous entities since inception and incurred transaction costs in connection with each acquisition, has borrowed money in order to finance operations, has used capital and intangible assets in the business, and because the payment of income taxes is necessary if taxable income is generated, any measure that excludes these items has material limitations. As a result of these limitations, EBITDA and Adjusted EBITDA should not be considered as measures of discretionary cash available to invest in the growth of the business or as measures of liquidity.

In addition to Adjusted EBITDA, management uses Unlevered Free Cash Flow, which measures the ability of Adjusted EBITDA to cover capital expenditures. Adjusted EBITDA is a performance, rather than cash flow measure. Correlating our capital expenditures to our Adjusted EBITDA does not imply that we will be able to fund such capital expenditures solely with cash from operations. Gross profit, defined as revenue less operating costs, excluding depreciation and amortization, is used by management to assess profitability prior to selling, general and administrative expenses, stock-based compensation and depreciation and amortization.
